

# GT890 IP Desktop Video Telephone

## Integrated video communications solution

Powerful desktop video phone for businesses of all sizes

16 lines

Mega-pixel camera

Android 7.0

Bluetooth

Gigabit

WiFi

PoE/PoE+

Speakerphone

ARM Cortex  
Processor

Capacitive touch  
screen

TLS / SRTP

Audio/Video  
Conferencing

## At a Glance

- > 16 lines with up to 16 SIP accounts
- > 4-core 1.3GHz ARM Cortex A53 processor (2GB RAM/8GB eMMC Flash)
- > 7" (1024x600) capacitive 5-point touch screen TFT LCD
- > Advanced mega-pixel camera with privacy shutter for HD video calling/conferencing
- > Android™-based operating system
- > Audio conferencing (7-way) & HD video conferencing (3-way 720p 30fps)
- > Bluetooth for syncing with mobile devices and connecting BT headset
- > Dual-switched auto-sensing 10/100/1000Mbps network ports
- > Gigabit network speed and innovative telephony functionalities
- > Integrated dual-band WiFi (2.4GHz & 5GHz)
- > Open interface for custom application development
- > PoE/PoE+ to power the device and provide network connectivity
- > Seamless integration with SIP-based security cameras, door systems, and video conferencing systems and services
- > Speakerphone with HD acoustic chamber, advanced echo cancellation & excellent double-talk performance
- > TLS and SRTP security encryption
- > WiFi support enables wireless network connection
- > Supported on UNIVERGE 3C

## Installation and Configuration Made Easy

The GT890 is easy to install and configuring is as simple as using a QR Code on your smartphone. It comes preloaded with the QR Code application so administrators can select the required configuration data to be applied to other GT890 phones.

Once data is selected, by touching the “Create” button, a QR code is generated and saved. The QR Code can be emailed to a smartphone. To configure another GT890, simply access the QR Code app, go to the “Read QR Code” screen, and have it read the code on the smartphone.

Easy Configuration with QR code

## A Powerful Desktop Video Phone

With the highly intuitive GT890's user interface you will enjoy using it from the first minute. The icons are easily recognizable and provide quick access to the available features and functionalities.

Just by lifting the handset, the built-in Dialler automatically displays. The keys are large and easily readable – so less chance of mistakes. Once number is entered, you can choose to make an “Audio Call” or “Video Call” or during a call switch from auto to video. Change from handset to speaker with a simple tap of the “Media” button.

The Dialler screen also gives access to a keyboard to enter a new contact in your directory. Once on a call, there is one-touch access to conference in others, mute the line, pull up the keypad and more.

## User Experience Taken to a New Level

With its intuitive interface and capacitive ve- nger multi-touch display, it takes the user's experience to a new level.

### Built-in WiFi

Integrated dual-band.  
WiFi (2.4GHz & 5GHz)

### HD Audio

HD handset and  
speakerphone with  
support for wideband  
audio

### Built-in Bluetooth

For syncing with mobile  
devices & connecting  
Bluetooth headsets

### Camera

Tilttable mega-pixel CMOS  
Camera with privacy shutter

### Incoming Call Lamp

Red & Green

### Brilliant Display

7-inch capacitive  
5- nger multi-touch

### Main Menu Screen

Easy access to Dialler,  
Voicemail, Camera,  
Calculator, Apps & more

### Available Side Ports

HDMI, SD Card,  
Headset & USB Ports

### Power over Ethernet

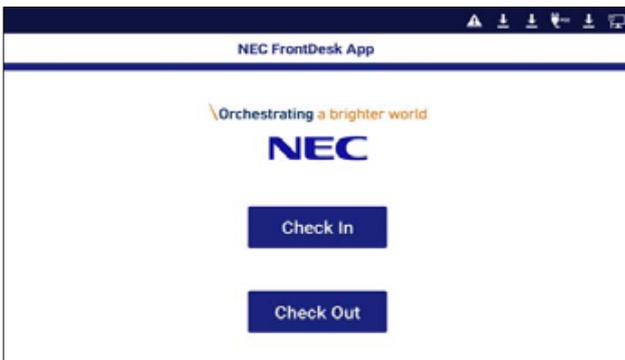

Built-in PoE/PoE+ for  
power & network connection

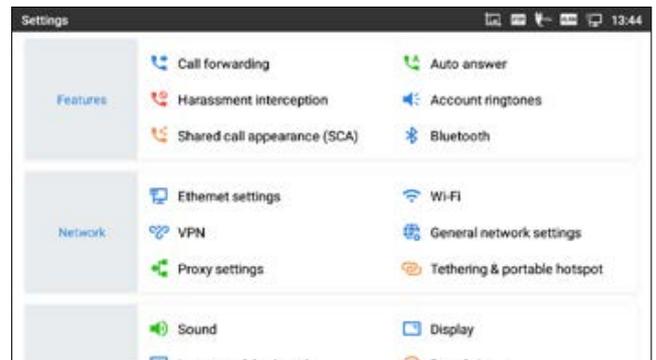

### Menu Bar

Easy access to Volume control,  
Home, Settings Menu & Back tabs

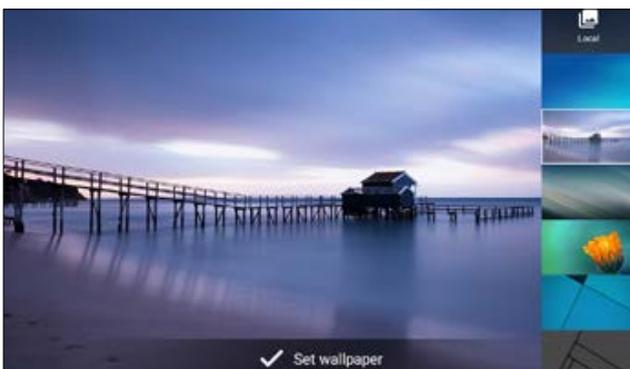

## Other Features

Front Desk Assistant Visitor Management App

Easy Access to Settings

Customise Wallpaper & Screensaver

Built-in Calculator App

## GT890 IP Desktop Video Telephone

| Feature                            | GT890 Product Specifications  |
|------------------------------------|---|
| <b>Network Interface</b>           | Dual switched 10/100/1000 Mbps ports with integrated PoE/PoE+             |
