

10 Reasons to Choose NEC

HYDRAsTOR - NAKIVO Backup Appliance

Reliable VM Data Protection with Extreme Deduplication

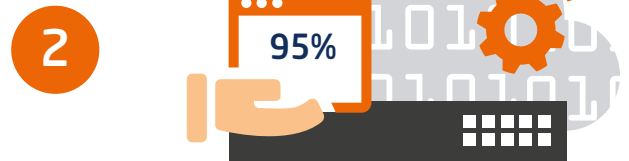

Complete protection for VMware, Hyper-V, and AWS EC2 environments

- > Image-based, application-aware backup and replication
- > Backup copy offsite and to Public Clouds (Amazon/Azure), Private or your Partner Cloud

Optimized Storage Space Utilization

- > Up to 95% storage space savings with extreme deduplication
- > Exclusion of swap files and partitions during VM backup

Perfect for Growing Virtualized Infrastructures

- > Easy scale-out to +300TB of logical data

Up to 2x Better Backup Performance

- > VM backups are written directly to physical storage disks
- > No overhead of CIFS/NFS

Fast Recovery in a Matter of Minutes

- > Near-instant VM recovery from backup
- > Granular recovery of files, folders, and application objects (Microsoft Exchange, SQL, Active Directory)

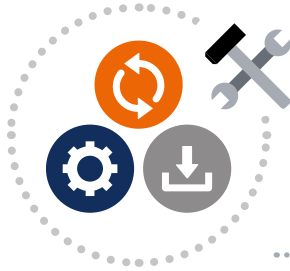

High Reliability and Optimization

- > VM backup software and storage are separated from the production environment
- > Backup software doesn't consume production server resources

6

7

Easy-to-Use Appliance

- > Simple deployment Plug & Play
- > Intuitive and responsive web interface
- > All required components are built in and pre-configured

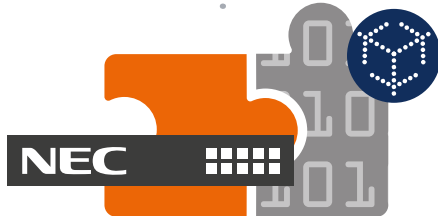

Flexibility and Cost Efficiency

- > Competitive pricing to suit the needs of SMBs
- > Flexible licensing model

8

9

Integrates Seamlessly with High-End HYDRAsTOR Hardware

- > Enterprise-grade Japanese physical hardware
- > 2TB and 16TB configurations are available
- > Build your own Hybrid Cloud Recovery Solution, together with your partner

NEC's Longevity, Stability, and Proven Expertise

- > Established in 1899
- > Financially stable global enterprise
- > #1 in Global Enterprise Communications market
