

UNIVERGE® ST500

SMARTPHONE CLIENT

SMART MOBILE VOICE AND VIDEO EXTENSION FOR YOUR SMARTPHONE

Take the power of the ST500 with you at work, at home and anywhere in between while not being tied to your desk.

NEC's UNIVERGE ST500 is developed for Apple iPhone, iPad and Android smart devices and lets you leverage native contact lists to make and receive voice and video calls. Simply connect to Wi-Fi or use your mobile data (4G/5G) to handle your calls.

The ST500 simplifies our operation by one number, merging your call history and work voicemail.

ADDITIONAL INFORMATION

The ST500 is available on your NEC Communications Platform but requires an activation code that you can obtain from your NEC representative. It may also require spare licence capacity on your NEC Communications Platform to connect as a standard SIP extension. When ST500 is connected from outside the corporate Wi-Fi network, a Session Border Controller can be used.

Note: Licence is required to activate on Communications Platform.
